## ABOUT ME

Full Stack Web Developer with a Software Engineering degree (2022), blending deep backend knowledge with modern frontend expertise to build dynamic, responsive, and high-performance web applications. I thrive on architecting scalable solutions and crafting seamless user experiences that push the boundaries of what's possible on the web. With a passion for solving complex problems and turning ideas into production-ready products, I am eager to bring my full stack capabilities to impactful, cutting-edge projects.

## WORK EXPERIENCE

TRUST CONSULTING SARL  
Apr 2025

### Senior Frontend Developer

- Utilized modern JavaScript libraries and frameworks such as React and Nextjs for dynamic user experiences.
- Employed version control systems like Git for code management, feature branching, and collaborative development.
- Conducted rigorous unit and integration testing using Jest, Mocha, or similar testing frameworks to ensure code quality.
- Adhered to best practices in coding standards, documentation, and code reviews to maintain high-quality software.
- Collaborated with backend developers to integrate APIs and optimize data exchange for improved performance.

VMEDIA  
Yaounde  
Nov 2023 - Jan 2025

### Frontend developer

- Lead frontend development for high-traffic web applications using React.js, ensuring mobile responsiveness and cross-browser compatibility.
- Collaborated closely with designers to implement visually appealing user interfaces and interactive features.
- Improved application performance by 20% through optimization techniques and efficient code practices.
- Integrated RESTful APIs for dynamic content loading and state management using React hooks and context API.
- Collaborated with backend engineers to ensure smooth data flow between client-side and server-side components.

KITSAFRIQ SARL  
Yaounde  
Jun 2021 - Oct 2023

### backend developer

- Engineered server-side logic for a high-traffic web platform utilizing Node.js and Express.js, catering to over 5,000 users monthly.
- Designed and implemented robust RESTful APIs to streamline data retrieval, manipulation, and user authentication processes using JWT and OAuth.
- Managed and optimized a MongoDB database with over 20,000 records, ensuring efficient performance and stringent data security.
- Collaborated with cross-functional teams to convert business requirements into precise technical specifications, contributing to successful web solution deliveries.
- Developed and executed comprehensive unit and integration testing protocols, achieving a 30% reduction in software bugs and enhancing code quality.

## EDUCATION

UNIVERSITY OF BAMENDA  
Yaounde  
2022

### Bachelor of Technology

- Bachelor of Technology in Software Engineering

CITEC HITM  
Yaounde  
2021

### Higher National Diploma

- Earned Higher National Diploma with distinctions, demonstrating dedication.

MARIO ACADEMIC COMPLEX  
Yaounde  
2018

### High school diploma

- Graduated as the top student in the Science Department.

JOPACC  
Bamenda  
2015

- Achieved top student honors in O/L for exceptional academic performance.
